Unlocking a safe operating space for Antarctica and the Southern Ocean

Horizon Europe

IN ATTESA

Codice
HORIZON-CL6-2027-02-CLIMATE-04

Ambito
Internazionale

Località
Europa

Curatore
Marlene Faria

DETTAGLI FINANZIARI

Tipo di supporto
Fondo perduto

Intensità Massima di Aiuto
100%

Budget
22M€

Valore di Progetto Ammissibile
Up to 11M€

DATE E SCADENZE

Data di Pubblicazione
12 dicembre 2025

Data di Apertura
20 aprile 2027

Deadline
23 settembre 2027 alle ore 17:00 GMT+2

DESCRIZIONE

Objectives

This call aims to advance multidisciplinary scientific understanding of the Southern Ocean and Antarctic cryosphere, focusing on their ecosystem dynamics and interactions with the global climate system. The objective is to resolve uncertainties and improve projections regarding the future of this region, considering near-term (around 2030), mid-term (2050–2060), and long-term (after 2060) changes. The call seeks to inform policies for environmental conservation and climate resilience, support evidence-based decision-making on polar ocean governance, and sustain European leadership in ocean–climate–biodiversity-cryosphere science. Eligible applicants include consortia of legal entities from EU Member States and Associated Countries, as well as international organisations, which are exceptionally eligible for funding under this call. International cooperation, especially with All-Atlantic Ocean Research and Innovation Alliance partner countries, is strongly encouraged.

Funding

The support is provided as a non-refundable grant under the Horizon Europe Research and Innovation Actions (RIA) scheme. The funding rate is up to 100% of eligible costs. The total budget for the topic is 22.000.000 EUR, with an expected two grants of 11.000.000 EUR each.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BONUS E MAGGIORAZIONI

- International cooperation, especially with All-Atlantic Ocean Research and Innovation Alliance partners
- Synergies with ESA Polar Science Cluster projects
- Contribution to European polar science coordination efforts
- Use of Copernicus and/or Galileo/EGNOS data and services
- Open access and FAIR data requirements for all in-situ data

IDONEITÀ

Modalità di Candidatura
Aggregata / Partenariato

Settori Idonei

- Energia e Ambiente
- Salute e Life Sciences
- Altro

Tipologie Aziendali

- Microimpresa
- PMI
- Small Mid-Cap
- Mid-Cap
- Grande impresa
- Enti privati non profit
- Enti pubblici

Tipi di Azione

- Multidisciplinary scientific research on Southern Ocean and Antarctic cryosphere
- Development of monitoring indicators for ocean, cryosphere, climate and biodiversity
- Long-term, continuous monitoring of Southern Ocean biodiversity and ecosystem functioning
- Development of regional approaches to polar ocean and climate observations
- Advancement of Earth System Models for polar regions
- Policy recommendations for environmental conservation and climate resilience
- International cooperation and coordination with ESA and polar science clusters
- Open access and FAIR data management for in-situ data
- Utilisation of satellite Earth Observation datasets
- Development of strategies to distinguish human-induced from natural environmental changes
- Research and Innovation Action

DETTAGLI PROGRAMMA UE

ID Bando
HORIZON-CL6-2027-02-CLIMATE-04

Cluster
Cluster 6: Food, Bioeconomy, Natural Resources, Agriculture and Environment

Destinazione
D5. Land, ocean and water for climate action

Modalità di Presentazione
single-stage

Contributo UE
€11,000,000.00 per project

Progetti Previsti
2

Regola dell'Intensità di Aiuto
Up to 100% of eligible costs for Research and Innovation Actions (RIA)
